Make your hotel unique

EXTERNAL SIDE, HALLWAY

wall reader without button

wall reader with ring

INTERNAL SIDE, ROOM

wnergy saver without buttons

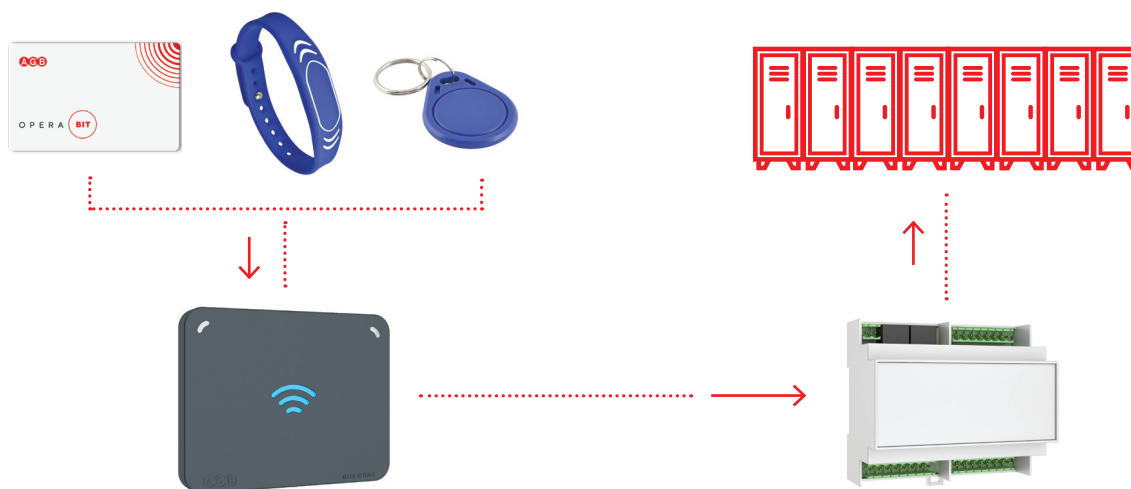

Energy Saver with DND and MUR

The wall reader could be customized as the cover of the Opera Bit.

## Expansion Module

The assignment of the lockers could be manual or automatic. It is made with Nebula Software on any RFID records: **card**, **keychain** and **bracelet**.

### Wall reader

with one wall reader it is possible to open up to 120 elements. The expansion module is compatible also with the wall reader for outdoor.

### Expansion module

Standard DIN module to be installed in the electrical cabinet. The communication between the reader and the module is serial to improve the security.

## TECHNICAL DATA
